Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-4 and 22-28, drawn to an apparatus and a method for coupling light to a photodetector through the side of an optical fiber, classified in class 250, subclass 227.31.
- II. Claims 5-21 and 63-70, drawn to interferometric displacement sensors using optical fibers, classified in class 356, subclass 482.
- III. Claims 29-43, drawn to an apparatus and a method for an optical disk drive pickup using an optical fiber, classified in class 369, subclass 112.27.
- IV. Claims 44-62 and 81-83, drawn to a reflective optical fiber switch, classified in class 385, subclass 18.
- V. Claims 71-80, drawn to a method for applying light to a tissue, classified in class 606, subclass 16.

The inventions are distinct, each from the other because of the following reasons:

Inventions I through V are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case

Art Unit: 2874

each of inventions I through V represents a complete apparatus or method which performs a unique function which is not associated with or required by any of the other inventions.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).0.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
